WORKS OF THE GLEN COVE STARCH MANUFACTURING COMPANY,

GLEN COVE, LONG ISLAND.

DEPOT, 166 FULTON STREET.

The Works are located at Glen Cove, Long Island, at easy distance from the Metropolis, and are possessed of natural and mechanical advantages which do not attach to any other establishment of the kind.

We argue the better the raw material used in the manufacture of Starch, as well as other manufactured articles, the better of necessity must be the product.

We therefore manufacture from the best "**Southern White Corn,**" by a most perfect modern process, (exclusively our own,) possessing numerous advantages over all others. The water used for cleansing is of the purest and softest character, as it is drawn **directly from the clearest of springs,** which enables us to offer to the Trade an **article purer, and naturally whiter,** hence stronger than any other Starch in the world.

DURYEAS' MAIZENA,

For Blanc Mange, Minute Pudding, Baked Pudding, Boiled Custard, Mock Cream, Ice Cream, Pies, Cakes, &c.

The Maizena is one of the most wholesome, nutritious, and agreeable articles of food in the whole range of farinaceous substances, and is an important addition to the national bill of fare. It may be cooked in all the forms mentioned above, and many more which good housewives will readily discover. It is **the flour of the choicest Southern White Corn,** (hence its whiteness and great delicacy,) put up in pound packages, with directions for use—and is a choice article for dessert and the sick-room, being quite equal to the best Bermuda Arrow Root.

N. B.—To fully protect the public, as also ourselves, against impositions, we have adopted as a title for our new article, and as our trade mark, the word "**MAIZENA,**" and shall prosecute any infringement or use made of said trade mark to the extent of the law.

Our articles have taken the first premium at the AMERICAN INSTITUTE, New York City; NEW JERSEY STATE FAIR, at Trenton; NEW YORK STATE FAIR, at Syracuse; MARYLAND INSTITUTE, Baltimore; and at other places, in every instance where they have been exhibited.

Our superior goods have, invariably, "**DURYEAS**" upon the boxes.

FORCE-PUMPS.

THE AMERICAN PUMP.

THIS IS A DOUBLE-ACTION FORCE-PUMP, without packing, without suction; simple, strong, durable; great leverage, little friction, works in all depths, loses no water, will not rust, will not freeze, works by hand and power, raising from 5 to 60 gallons per minute, according to size; patented April 5, 1859, and in operation in nearly every State in the Union. Warranted to work. Prices from $15 to $60.

"Those who have used it speak well of it."—*N. Y. Observer.*

"It needs no priming, is very simple."—*Life Illus.*

"The labor of working it very trifling."—*N. Y. Christian Advocate and Journal.*

"One man forces water 540 feet, and 97 perpendicular."—*Scientific American.*

"Full confidence can be placed in it."—*Pres. Banner, Pa.*

"We consider it the best we have ever seen."—*Galveston News, Texas.*

"It took the premium at our State Fair."—*Raleigh Register, N. C.*

"We never saw one comparable to this."—*St. Louis Christian Advocate.*

"Brings a continuous stream with little labor."—*Southern Planter, Va.*

"One could force water anywhere to any height."—*Am. Agriculturist.*

"It has been brought to the greatest perfection."—*Newsgiver, Spanish.*

Institution for the Deaf and Dumb,
Washington Heights, N. Y., March 26, 1860.

J. M. EDNEY, ESQ.:—Having had occasion, nearly eight months ago, for a pump differing somewhat from those in ordinary use, after inspecting many kinds I met with your circular, and ordered a No. 2 Pump, the cylinder and piston of brass, the remainder of galvanized iron. It was well fitted up, works easily and successfully, and has thus far required no re-adjustment or attention whatever. Indeed, I regard it as the most durable pump I have seen, and as possessing all the merits you claim for it.

E. B. PEET.

NEW YORK, April 18, 1860.

I hereby certify that a No. 2 American Pump, placed in my reservoir, near King's Bridge, forces water to my house, a distance of 862 feet, at an elevation of 158 feet *perpendicular*, worked either by one or two men, and discharges over five gallons per minute, with ease and regularity.

SIZE OF OUR BOXES.

ing sawed and split, which we are delivering, at an advance over the whole wood of only 25 cents per load.

January, 1860.

All orders promptly attended to, if sent to our Office (130 Horatio Street), through the U. S. or Boyd's Posts, or otherwise, as we have no pedlars or street hawkers, but deliver only as ordered.

We are delivering best Virginia Pine Kindling Wood, per Load, for $2 75
Ends and Knots, . . 2 50
Oak Kindling or Stove, . 3 00
Hickory " " . 4 00

A Load of Wood (4 feet in length) contains 37 10-12 cubic feet, but the average length in this market is only 3 feet 4 inches; consequently it contains only 32½ cubic feet, for there is nothing now allowed in height for what the wood is short of 4 feet in length; our load (9 boxes) contains 43 cubic feet, which allows one third increase of bulk, after being sawed and split.

WILSON'S

STREET AND AVENUE DIRECTORY

OF THE

CITY OF NEW YORK.

(Corrected April 1, 1860.)

Entered according to Act of Congress, in the year 1860, by H. Wilson and John F. Trow, in the Clerk's Office of the District Court of the United States, for the Southern District of New York.

EXPLANATION.

If you wish to find the location of any dwelling-house or store,—for instance, No. 80 **ALLEN** Street,—on consulting the Street Directory (*see* **ALLEN**) you will observe that 68 Allen is on the right hand of that street and on the corner of Grand, and 88 Allen is on the right-hand corner of Broome, hence the desired number, 80 Allen, will be on the right-hand side of Allen Street, between Grand and Broome.

Or suppose you are going up Broadway and wish to take a cross street, so as to call at 236 Hudson Street, on examination (*see* **HUDSON**) of the corner numbers in Hudson Street, you will observe that 230 Hudson is on the corner of Broome—hence by passing from Broadway through Broome Street to Hudson, you are near to the desired number, 236.

NOTE.—Such of the streets as are divided into East and West, will be found in this work under E. and W.

Dr. KELEMEN'S

GRECIAN

HAIR

BALSAM.

Entered according to Act of Congress, in the year 1860,
By Dr. A. Kelemen.
In the Clerk's Office of the District Court of the United States for the Southern District of of New-York.

This elegant preparation is now in market, and stands first in the line of discovery.

The principal ingredients used in its preparation were first introduced into the world by the **ANCIENT GREEKS** to prevent baldness; as history informs us that at an early period almost that whole nation was afflicted with a certain disease of the hair which produced baldness. It prevailed to an alarming extent until the discovery of this beautiful cosmetic, which was made by **Hippocrates,** in the year 430 before Christ, and was kept under the secrecy of Hippocrates, **jus juran-dum,** and only dispensed by those who belonged to that sacred body of **Asculap**.

Socrates who was a special friend of Hippocrates, as well as an exponent of his ideas in every branch, also recommended it, not only for the restoration of the hair, but to prevent the head ache and to cultivate the memory.

So enamored was he of its virtues, that when **Xenophon** fell from his horse on the battle field, near the ancient city of **Delium,** Socrates, his professor, carried him on his shoulders over the dead bodies of the **Athenians,** when, meeting with **Thesalius,** the son of Hippocrates, he immediately gave him orders to apply the **Grecian Hair Balsam** freely to the head of Xenophon,* fearing that in the excitement of the scene he would be deprived of his memory.

From another authentic source we learn that 292 years before Christ, a great pestilence broke out in the ancient city of **Rome.**

All who were not carried off by its ravages were left almost entirely without any hair. The knowledge of this wonderful preparation having come to the ears of the governor of the city, he instantly dispatched a deputation to the cities of **Koz** and **Knidos,** with an appeal for the valuable cosmetic of the

GRECIAN HAIR BALSAM.

The only change which it has been necessary to make in this preparation, offered to the public, from what it was originally, has been the addition of cooling vegetable tonics, which not only stimulates the hair to a healthy and vigorous growth, but at the same time gives it a dark gloss and softness.

* *Vide.* Expedition Cyri; at Historia Graeca Xenophonii.
See the Fragments of Historia Medica Oeconomia Hippocrates. Bas. 1550.

It has been prescribed by the originator during an extensive medical practice of more than 25 years, and the results have been gratifying in every instance—to the public, in its superiority over all other preparations in use—and to the proprietor, in the positive proof that he has contributed his ability towards maintaining the growth of the human hair, which is intended by nature to **adorn and beautify the body.**

HUNDREDS OF LETTERS

highly extolling its merits and recommending it to the support of the public might be given, but they are withheld for the simple reason that this practice is universally resorted to to bring the most worthless trash into notice, a portion of which is sold but little higher than the actual cost of the bottles.

The effect of the Grecian Hair Balsam on the human system is beneficial, as will be seen by the following cases which have recently come under my observation:

1st. A lady in the highest circle of my acquaintance had suffered many years from a pain in the spinal organ, which was also attended with the loss of her hair. I ordered the Grecian Hair Balsam to be used freely upon the head, and at the expiration of 6 weeks was gratified to learn that the hair had began to grow and the pain in her back had ceased. (The wonderful effect which it produced in the case cited above is easily accounted for by every scientific man; as it shows plainly that by saturating the scalp of the head with the Balsam, the nerves of the brain and the spine, also the medula oblongata are richly benefited by being awakened from their sleepy and paralyzed state, which caused the prostration of the scalp, and the loss of hair.)

2nd. About the close of the year which has just passed, I was called to visit a lady who had been suffering from a rheumatic headache and gradual loss of hair for more than 15 years. I ordered her to apply the Grecian Hair Balsam, and the result was as I anticipated—the headache was cured, and the hair began to grow.

3rd. An old gentleman came to me recently, who had been troubled with Catarrh in the head, and a curious discharge from the throat and nostril organ, for about 20 years. I recommended the Grecian Hair Balsam to be used freely, which has entirely removed the Catarrh, and fine young hair has just made its appearance.

Numerous cases could be cited to show that while its effect is directly beneficial to the hair, it also indirectly but perceptibly effects the entire system, and these are facts that will reveal themselves at an early day in the experience of all who will make use of it. A single trial of it will convince all that it is the cleanest and most valuable cosmetic for the hair in use.

It is the determination of the proprieter to employ no agents in the manufacture of the Balsam but the purest and best which can be obtained, and he is persuaded that it will soon become the

LEADING TOILET FOR THE HAIR IN AMERICA.

These and other considerations render the Grecian Hair Balsam superior to all other preparations in the market, and the reader may rest assured that wherever it is introduced it will **tell its own story.**

PRICE $1 per BOTTLE.

Sold by every Druggist in the United States and Canadas.

The Grecian Hair Balsam is carefully packed for shipment to Foreign Countries, and will stand all atmospheric changes.

NOTICE.

Beware of Counterfeits See that the name "DR. KELEMEN'S GRECIAN HAIR BALSAM" is blown in every bottle.

Benefits of Life Insurance.

Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune, or the accidents of life; and the advantages which Life Insurance Companies offer in this respect, are too apparent to need an appeal to the public on their behalf. "A policy of Life Insurance," said Benjamin Franklin, "is the cheapest and safest mode of making a provision for one's family." That more do not avail themselves of the benefits of Life Insurance, must be that the operations of these companies are not as well understood as are those of a similar character, namely, Fire Insurance. A man who neglects to insure his house, if it is destroyed by fire has but little sympathy in his misfortune, and is censured and condemned for his imprudence; but what is the loss of a house without insurance, compared to the loss by a wife and children of a husband and father, without an insurance on his life? Unlike Fire Insurance, however, every house may not be burned, but every man dies. The necessity of Life Insurance is therefore more apparent and more positive than Fire Insurance.

Purposes of Life Insurance.

Life Insurance may be resorted to for other purposes than that of protecting a family from want. Creditors may assure the lives of their debtors as a security for their claims, or a policy may be taken for a sum payable when the party attains the age of 50, 55, or 60 years, and so make a provision for old age, or payable to their heirs or assigns, should they die in the interim; or a fixed sum may be secured at death by one payment. A Life Insurance Company is thus capable of being used for the purpose of a savings bank, with this advantage, that should the party die while he keeps his account with the Assurance Company, his heirs or assigns will receive a very much larger sum than they could possibly receive from any savings bank in which a similar account might be kept.

The question is no longer, SHALL I GET MY LIFE INSURED? but rather, WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?

Difference in Life Insurance Companies.

In answering this question it will be necessary to explain briefly the different kinds of Life Insurance Companies. They are all based upon the same fundamental principles, differing in the plan of organization upon which the business is conducted. This difference consists in their being either *Joint Stock* Companies, *Mixed* Companies, or *Mutual Insurance* Companies.

Joint Stock Companies.

Joint Stock Companies issue at fixed rates, the *profits* being WHOLLY divided among the proprietors.

Mixed Companies.

Mixed Companies are also Joint Stock Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

Mutual Companies.

Mutual Companies, on the contrary, have no proprietary body distinct from the insured, *all of whom* have their proportionate *share* in the surplus accruing from the business.

Advantages of Mutual Companies.

A *purely mutual company* offers then a greater advantage, inasmuch as it divides the *whole* surplus among the insured after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a *degree* with the mixed companies. This plan of operation insures the applicant at the *lowest possible* premium, for all that is over the sum required to insure him safely, is returned in dividends, which is not the case with the stock companies, and partially so only with the mixed companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

The *New England Mutual Life Insurance Company* is organized upon the purely mutual plan, and has, as the result of this plan, during the sixteen years of its existence, declared to those assured the following dividends:

36	per cent.	to all	members	since 1853.
38	"	"	"	1848.
39½	"	"	"	1843.

Dividends Payable in Cash.

The New England Mutual Life Insurance Company do not pay their dividends in Scrip, but always in CASH. At the close of every five years, the Company, after paying the expenses of the business, reserving a sufficient sum to re-insure all risks, and cover all possible contingencies, divides the surplus proportionately among the assured. By this plan there is no accumulating scrip, or possible liability to guard against, and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some Companies are compelled by their charters
